

LARSEN STRINGS^{A/S}

Larsen Strings A/S, Elholm 6 A, DK-6400 Sønderborg, Denmark

Information Sheet

Larsen Original for Viola

Our Larsen Viola A has very nearly become the default choice as the foundation for the ideal viola set up. Offering versatility and projection combined with long lasting and consistent performance.

Medium lends a lovely mellow sound, while strong offers brightness and power.

String Details

Our Viola A string is made on a solid steel core. It is wound with precision rolled stainless steel flat wire whilst the C, G and D strings are made with a unique multi-filament nylon core. We use advanced windings of precision rolled silver flat wire for the C and G strings and aluminium for the D string. Larsen Original for viola C, G and D strings are recommended in particular for bright sounding instruments.

All four strings are offered in two tensions, medium and strong whilst the A string is also available in soft. The strong tension strings offer more volume and higher resistance to the bow.

Please also view the information sheet for our new Virtuoso[®] Medium and Soloist options for viola.
